WORK EXPERIENCE

Front-end Developer Marvellex

04/2024 - Present

Islamaabad

As a Front-End Developer at MarvelleX Solutions, I specialize in creating dynamic and responsive web applications that enhance user experience and drive business success. My key responsibilities include: Collaborating with designers and back-end developers to implement visually appealing and functional interfaces using modern web technologies such as HTML, CSS, JavaScript, and frameworks like React and Next.js. Optimizing applications for maximum speed and scalability, ensuring cross-platform compatibility and responsiveness across various devices and screen sizes. Utilizing Tailwind CSS for efficient styling and layout design, enabling rapid development and a clean, maintainable codebase.

LATEST PROJECTS

<https://main.d3fvrebon4hxcs.amplifyapp.com/>
(10/2024 - 10/2024)

- Client Portfolio is a new project I developed to showcase my design and front-end development capabilities. The portfolio features a clean design with intuitive navigation, allowing users to easily explore the client's projects and skills.

quadsol.co (05/2024 - 05/2024)

- Quadsol.co** is a web application that I developed independently, showcasing my skills as a Front-End Developer. Designed using Next.js and Tailwind CSS, this project features a fully responsive layout, ensuring an optimal user experience across all devices. I took pride in crafting every aspect of the site.

mlxsoft.co (04/2024 - 06/2024)

- MLXSoft** is a project where I contributed my design skills to create an aesthetically pleasing and user-friendly website. Focusing on clean layouts and intuitive navigation, I aimed to enhance the overall user experience.

wolkinc.com (04/2024 - 04/2024)

- WolkInc** is my first live project, where I took on the role of Front-End Developer to design and develop a fully responsive website. Utilizing Next.js and Tailwind CSS, I focused on creating a clean, modern interface that enhances user interaction.
