Projects

Real Estate Listing & Management Platform 🔗

05/2025 – 07/2025

Property Booking and Management Web App

- Developed a real estate platform for listing, searching, and managing property bookings using **Next.js**, **Tailwind CSS**, and **React.js**.
- Implemented dynamic filters for location, price range, and property type with real-time results.
- Created admin features to add, edit, or remove listings securely via **role-based access control**.
- Integrated **image gallery sliders** for each property and optimized layout for mobile and desktop.
- Focused on user-friendly UI/UX and smooth navigation across all pages.

Marvellex Software Solution 🔗

05/2024 – 07/2025

Business Management SaaS Platform

- Developed MLX, a modern SaaS platform for managing business operations including tasks, clients, and internal services.
- Built using **Next.js**, **Tailwind CSS**, **React.js**, and **Node.js** for a fully responsive and dynamic UI/UX.
- Implemented **authentication & authorization** using JWT and role-based access controls.

- Created multiple dashboard modules such as Task Management, Analytics, and User Profiles.
- Integrated **MongoDB** with Mongoose for scalable data handling and optimized queries.
- Focused on clean architecture, component reusability, and performance tuning across devices.

Cleaning Service Website

11/2024 – 12/2024

Service Booking Web Application

- Built a fully responsive and modern cleaning service website using **Next.js**, **React.js**, and **Tailwind CSS**.
- Created service listing pages with detailed descriptions and pricing for various cleaning services.
- Developed a **dynamic booking form** that allows users to select services, schedule appointments, and submit requests.
- Integrated contact forms and reusable components for scalability and ease of updates.
- Optimized UI for mobile and desktop views with fast load performance and clean design.

Professional Experience

Frontend & Backend Developer (Full-Time)

07/2024 – 07/2025

Marvellex Software Solution – Islamabad

islamabad, pakistan

- Built and maintained scalable web applications using **React.js**, **Next.js**, **Node.js**, and **MongoDB**.
- Developed modular, reusable components and responsive UIs for client-facing dashboards.
- Implemented authentication and user management features using **JWT** and **role-based access control**.
- Integrated backend services with **Express.js** and **Mongoose**, ensuring secure and efficient data flow.
- Participated in **Agile development cycles**, handled production deployments, and collaborated with cross-functional teams.

Marvellex Software Solution

05/2024 – 07/2024

Frontend Developer (Intern)

islamabad, pakistan

- Assisted in developing responsive user interfaces using **React.js**, **Next.js**, and **Tailwind CSS**.
- Learned best practices in component structure, layout management, and mobile-first design.
- Collaborated with senior developers to integrate frontend features with backend APIs.
- Gained hands-on experience in **Git-based workflows**, code reviews, and daily Agile standups.
- Worked on real-world modules like dashboards, service listings, and forms under close supervision.
- Improved skills in **JavaScript (ES6+)**, debugging, and UI/UX design consistency.

Courses

frontend 

06/2022 – 09/2022

frontend web designing

Rawalpindi

During this course, I gained practical experience in HTML, CSS, JavaScript, and Bootstrap. Worked on real-world projects in a team environment, focusing on responsive design and user-friendly interfaces.
