Tailwind CSS

## PERSONAL PROJECTS

### quadsol.co

- The Quadsol project is a cutting-edge web application developed using Next.js and Tailwind CSS. This project is meticulously designed to be fully responsive, ensuring a seamless user experience across all devices, from mobile phones to large desktop screens. The use of Next.js allows for efficient server-side rendering and optimized performance, while Tailwind CSS provides a flexible and scalable framework for custom styling.

### wolkinc.com

- created **WolkInc** using **Next.js** and **Tailwind CSS**. I designed and developed the entire front-end, focusing on a clean, responsive, and user-friendly interface. This project showcases my skills in front-end development.

### <https://mlxsoft.com/>

- created **mlxsoft** using **Next.js** and **Tailwind CSS**. I was responsible for designing and developing the entire front-end, ensuring a clean, responsive, and user-friendly interface.

### <https://main.d3fvrebon4hxcs.amplifyapp.com/>

- created **This portfolio** using **HTML**, **Tailwind CSS**, **Next.js** and **JavaScript** and I was responsible for designing and developing the entire front-end, ensuring a clean, responsive, and user-friendly interface.
